Making a sum total for the school fund of \$66,129 48. The other sources" referred to, represents a loan of \$15,919 89 from the People's Bank. From this loan, however, the balance of receipts over expenditures is to be deducted, viz: \$6,007 57-which shows that our actual receipts fell short of expenditures by \$9,912 32. In other words the school fund stands that much short at the close of the year.

The Building fund account is also short at the end of the year by \$3,130 82. There was a balance of \$6,429 85 to commen the year with, and there was collected from the 15 cent tax for that year \$20,-967 93; and there was also \$256 34 derived from other sources, making a total of receipts of \$27,554 12, against an expenditure of \$30,784 94. Against this shortage, however, the building fund holds bills receivable to the amount of \$2,250 00, so that the fund is only \$880 82 behind. Its principal expenditures last year were for the Third, Sixth and Seventh Ward school houses. These three items represent \$26,240 34 The other main item is the purchase of the Johnson property in front of the First Ward school house, for which \$4,000 was paid.

The school fund account shows an ex penditure of \$60.121 91 for running expenses for the year. Of this sum total \$39,105 39 was paid out to teachers, which includes \$2,497 89 paid for instruction in German, and \$1,866 50 for the night schools. In addition to the night schools. In addition to these expenditures, \$1,100 was paid to the City Superintendent, \$400 to the Clerk of the Board, and \$1,420 50 to the janitors of the various school houses. There was also paid out for "fuel and contingencies" a sum total of \$3,821 51, and for "repairs" \$5,005 93. CAMP MEETING.

Closing Neenes of the Mounds ville |Camp Meeting. MOUNDSVILLE, September 1.

Last night at the close of the sermon the Rev. Dr. Reilly, of Wheeling, gave one of his most stirring appeals to sinners. His remarks were listened to with the most breathless attention, and at the close sixteen persons presented themselves at the altar as seekers, and three asselers of the blessing of perfect holiseekers of the blessing of perfect holi-ness. The entire sixteen were converted, a number of them shouting aloud the praises of God. Two or three professed ntire sauctification. The meeting was continued until some time after midnight, and all the while the most perfect order prevailed throughout the entire large congregation present. About midnight, Elder Ball made some closing remarks. As this camp meeting closes his labors with us as a leader, his term as Elder expiring at the next meeting of the Conference, he thanked all with whom he had so long bren associated for the many favors received at their hands. He hoped to meet all again many times through life, if not in the same capacity, in pleasing the most received and the same capacity, in pleasing the most received and the same capacity in pleasing the most received and the same capacity in pleasing the most received and the same capacity in pleasing the most received and the same capacity in pleasing the most received and the same capacity in pleasing the same capacity in the same capacity in pleasing the same capacity in the same capacity i life, if not in the same capacity, in pleas ant relations, on the same old camp

A number of others spoke, relating their experiences. After some time being thus spent, all joined in singing the covenant hymn, after which the doxology was sung and the audience quietly dispersed, excepting a few who remained about the aftar with two who had sunk into an almost unconscious condition. I hear this morning that they remained in this condition all night. One was a lady and the other a gentleman, both young. and the other a gentleman, both young

more about it, than Mr. Bishop. He has had a very pleasant excursion and looks as brown as a berry. We notice that he has dropped his crutch and taken to a cane oxclusively. He says that Europe came fully up to his expectations, and thinks it is a pretty good country to travel in, especially Paris, where the attractions seemed to have charmed him more than all other places put together. They are gay and happy in Paris, and a man with a cane forgets his disability and becomes as one of the festive throng. Therefore it is a good place for invalids. Mr. Bishop's many friends will be glad to know that the little matter of business on which he went, the settlement of the estate left to himself and relatives, pans out all right; and will pay the expenses of several trips across the Atlantic.

The Aunual School Statement for Last Year.

We published a few days ago the annual statement of the Clerk of the Boar of Education showing the receipts and expenditures of the two funds of which he has charge—viz: The School fund and the Building fund. The former relates exclusively to the running expenses of the schools, and is derived from the 25 cents that is levied on every \$100 of cents that is levied on

Nothing else was taken as far as known. There is as yet no clue to the robbers. Being candidates for our state prison they should be careful how they carry on their little game, for it takes but a short time to place them within its walls if arrested. Several old revolvers that have long lain rusting in idleness, were brought into requisition last night, and brave men grasped them during the entire night only longing for a chance to use them. Strange as it may appear Mr. Hlake was the only merchant who was not warned. Why I do not know. He was at camp meeting and the robbery, was committed before he returned home. Many of our store rooms could heretofore have been easily entered at any time by burglars, but we propose hereafter to have them well guarded, at least this will be done for some time, and, as a matter of course, the thieves will do the same until the excitement dies away. SERVIAN ARMY REINFORCED.

LONDON, September 1.—A correspondent writing from Belgrade says the Servian army is being rapidly reinforced and reorganized by the Russians, who are crossing Roumania and hurrying up in large numbers, and that since this influx the Servians have lought better and seem likely to hold their ground against the Turks. The extent of the advantages gained is only to be judged by a reflex influence upon the political situation at Belgrade, A week ago Pfince Milan under the mediation of the Powers in the most formal manner for Servia and under the mediation of the Powers in the most formal manner for Servia and Montenegro jointly. This step was taken in opposition to General Tehernayeff's wishes, and in the face of his protests and arguments. It has been daily becoming more and more apparent that the Prince's action is regretted, at least by those in control of the Servian government, and powithstanding the Powers have notified notwithstanding the Powers have notified Prince Milan of their acceptance of the task of bringing about peace negotiations, it is evident that Servia will be obstinate and evade them if possible. Some new military disaster produces another revul-

military disaster produces another revulsion of feeling.

Tehernayeff's memorandum against peace was yesterday officially published by the Servian Press Bureau. It throws no additional light on the situation, and its most striking features are the official presentation of arguments that Servia has nothing to lose by the war since the European powers will never allow the Porte of deprive her of her present political adto deprive her of her present political ad ministrative rights, and the expression o the belief that Russia will soon be forced to enter the contest if it is prolonged.

THE UNCERTAIN STATUS OF AFFAIRS.
LONDON, September 1.—A special from Pesth to the News says: The passage of Russian officers through Hungary is becoming a source of irritation, and several parties have been arrested and imprisoned. To-day we have an account of a party of sixty-eight, provided with passports and traveling under the protection, of the Geneva Cross, being detained by order of the Hungarian home ministry; but Baron Hofmann, who is acting for Counf Andrassy during his. absence, has decided that they shall be allowed to proceed, and that similar travelers from Russia be permitted to pass unmofested. Maantime peace negotiations which have been committed to the ambassadors at Constantinople seems not to be making very satisfactory progress. Another telegram states that at the Council of the Turkish Cabinet Wednesday it was determined to postpone any decision regarding the supervision of hostilities until the wishes of the Powers concerning the terms of peace were more fully ascertained. This indicates, that the Powers themselves have not arrived at-any agreement regarding the basis of the negotiations, and dicates, that the Powers themselves have not arrived at-any agreement regarding the basis of the negotiations, and tends to confirm the statement that Russia desires to include the Herzegovinia and Bosnian affairs in the settlement upon the basis of the Berlin memorandum. If this demand meets with considerable support from the other Powers, the negotiations will be rendered extremely difficult in consequence of England's further rejection of the Berlin proposals. The feeling that the present-situation is dangerously uncertain, begins to be reflected by the prices of the International stock upon the London and Continental Exchanges,

RUSSIA'S POSITION.

St. Petersburg, September I.—It is said in official quarters that Prussia has united with other powers in the efforts for pacification and that the Russian representative at Constantinople has declared that should an armistice, be concluded Montenegro would adhere thereto. No conditions of peace have as yet been formulated. Russia without assuming a prominent part in the steps taken to stop bloodshed, fully participated in the diplomatic action at Belgrade, which induced Prince Milan. to request mediation of the Powers. Russia has always in view the necessity of obtaining guarantees for securing peaceful taining guarantees for securing peacetul intercourse between the Christians and Mohammedan populations of Turkey. Russian policy remains the same as at the Berlin conference, and there is no reason to suppose that other views prevail at Vienna or Berlin.
